Essential business functions continue. I will provide updates to operations via our website as soon as I can after they become available and we determine how changes affect us. By 5/1, The Board and I will determine our options beyond 5/4.

I hope you'll join me in remembering we each have the power to affect our own health and safety as well as the health and safety of people around us by following CDC and NH Public Health instructions. By working together we can slow the spread of the virus and speed up the timeline to be together.

Thanks again for your support.
